<b>Siderophile Elements in Tracing Planetary Formation and Evolution</b> . . . .	1
<b>Abstract</b> .....	1
1. Introduction .....	3
2. Overview of Siderophile Elements .....	14
3. Siderophile Elements in Chondrites and Iron Meteorites .....	21
3.1 Chondrites .....	21
3.2 Iron Meteorites .....	27
3.3 Additional Observations Regarding Siderophile Elements in Meteorites .....	33
4. Origin of Siderophile Elements in the Silicate Portions of Differentiated Planetary Bodies .....	36
4.1 Origin of Siderophile Elements in the Bulk Silicate Earth .....	36

4.2	Origin of Siderophile Elements in the Moon and Mars, and Some Lesser Bodies. . . . .	48
4.2.1	The Moon. . . . .	49
4.2.2	Mars . . . . .	54
4.2.3	Other differentiated bodies. . . . .	59
4.3	Putting the Planetary Data Together. . . . .	61
4.4	Genetics of Late Stages of Earth's Accretion. . . . .	65
5.	Siderophile Elements in the Depleted MORB Mantle . . . . .	67
5.1	Overview of the DMM. . . . .	67
5.2	Mid-Ocean Ridge Basalts. . . . .	71
5.3	Abyssal Peridotites . . . . .	74
5.4	Ophiolites . . . . .	79
5.5	Summary Observations regarding Siderophile Elements in the DMM . . . . .	84
6.	Siderophile Elements in Subcontinental Lithospheric Mantle . . . . .	90
7.	Siderophile Elements in the Mantle Sources of Ocean Island Basalts . . . . .	95
7.1	Siderophile Element Abundances and $^{187}\text{Os}/^{188}\text{Os}$ . . . . .	95
7.2	The Story of $^{186}\text{Os}$ . . . . .	102
8.	Tungsten Isotopes In The Mantle . . . . .	110
9.	Concluding Remarks . . . . .	117
	<b>References</b> . . . . .	119
	<b>Index</b> . . . . .	143
